

I just got a job as a School Counselor!

“ Dear Dr Fred,

I want you to be the first to know outside of my family, that I received a firm Offer of Employment to be a school counsellor with St. Andrew's Lifestreams as from January, 2008. I had a couple of interviews and in one interview two case studies were presented where I had to give my comments. So, all the training you gave us put me in good stead, it was not merely the degree. I just received the Offer Letter yesterday.

My heart is filled with gratitude for all I learned from you and the other lecturers from Lee Community College. I just hope I can put it all to good practice and make a positive difference in lives. As I write I have mixed feelings of excitement and fears as well. I do hope I can count on you and the channels you have provided for any advice and clarification if the need arises.

”
